SUMMARY

A passionate technology enthusiast with a solid foundation in mobile app development with Flutter as core framework, particularly focused on creating seamless and user-centric digital experiences. Actively engaged in exploring emerging technologies, with hands-on knowledge in ethical hacking and cybersecurity driven by a strong curiosity for digital safety. Also well-versed in computer hardware, operating systems, and software architecture offering a comprehensive understanding of technology from both system-level and user-level perspectives.

TECHNICAL SKILLS

Programming Languages: Dart · Kotlin · Swift · JavaScript · Python · Java · SQL

Technologies: Flutter · React · Spring Boot · NodeJS · Git · Wordpress · Shopify

Libraries & Tools: SQFLite · Hive · Firebase · Supabase · Shell Scripting · Adobe XD

Security: Reverse Engineering · BurpSuit · Metasploit

Platforms: Android · iOS · Web · Linux · Web Hosting (CPanel, DirectAdmin)

AI Tools: Copilot · Antigravity · Codex · Cursor · Stitch

EXPERIENCE

Lead Engineer

QBurst Technologies Pvt Ltd.

Oct 2024 – Present

Bangalore, India

Anona Diet App

- Lead the end-to-end development of a high-performance nutrition and wellness platform using Flutter and Provider.
- Major features includes health app data integrations and Method channel for dynamic app icons.
- Architected the application lifecycle, overseeing everything from initial concept and UI design to testing and production release.
- Acted as the primary technical point of contact for the client, translating business requirements into technical roadmaps and providing accurate project estimations.
- Managed the deployment pipeline, handling seamless releases on both the Apple App Store and Google Play Store.
- Mentored junior developers and conducted code reviews to ensure high-quality standards and architectural consistency.

Senior Engineer

Mar 2023 – Oct 2024

Kochi, India

Confidential E-commerce App (Japan-based Global Brand)

- Maintained a high-traffic e-commerce platform serving 10 million+ active users, ensuring 99.9% crash-free sessions through proactive production issue resolution.
- Architected complex features using BLoC/Cubit to manage sophisticated state transitions across the shopping, checkout, and user profile modules.
- Enforced code quality and architectural integrity by leading code reviews for a cross-functional team, reducing technical debt and improving maintainability.
- Implemented a robust testing suite, including Unit and Integration tests, to safeguard critical business logic and prevent regressions during rapid feature deployment.

Engineer

Sep 2022 – Mar 2023

Trivandrum, India

SignBaza App

- Developed core features for the SignBaza platform using Flutter and Provider, ensuring responsive design across Android and iOS.

- Collaborated with cross-functional teams to gather requirements and suggest technical solutions for feature enhancements.

Engineer

Mar 2022 – Sep 2022
Trivandrum, India

Ronati App

- Built and maintained enterprise-level mobile applications, focusing on robust code architecture and clean UI implementation.
- Supported the full application development lifecycle, contributing to testing phases and troubleshooting production issues.
- Contributed to technical documentation and internal knowledge-sharing sessions to improve team efficiency.

Flutter Developer

Feb 2020 – Mar 2022
Kochi, India

Skyislimit Technologies Pvt Ltd.

- Major cross platform Android & iOS apps developed are Kairali Jewellers, Vanfokuz, FactDealer, etc.
- Responsibilities includes contribution to the app development lifecycle from planning, requirement gathering, development & testing.
- Location tracking using Google API & Location Manager.

PROJECTS

Package: Material Card

Jan 2022

Flutter package

Dart

- A reusable material card for flutter app.
- Supports Android, iOS, Web.

Websites

Feb 2020

Design, Development, Domain and Server management.

React, PHP, Wordpress, SQL, AJAX

- amanahospital.in
- decastleinteriors.com
- southbound.qa

Academic Project - Fake Message Detection On Instant Messaging App

Jun 2019

Mobile app - Android

Java, XML, Tensorflow

- An Android Instant messaging app which helps to detect fake messages.
- App developed using native technology in Java.
- Model class developed using tensorflow in python.

KTU CSE S4 App

Apr 2017

Mobile app - Android

Java, XML, Firebase

- An Android app for 4th semester CSE students of KTU which includes syllabus and study materials.
- App developed using native technology in Java and Firebase.
- MFollowed Google's material design guidelines.

EDUCATION

Kerala Technological University

Kerala, India

BTech in Computer Science Engineering

Aug 2015 – May 2019

DHSE - Kerala

Kerala, India

Higher Secondary Education

Jul 2013 – Mar 2015

Kerala Board of Public Examinations

Kerala, India

SSLC

Jun 2012 – Mar 2013

CERTIFICATIONS

- Redhat Certified System Administrator
